

## Retirements

Chris

Please join us in congratulating Christine "Chris" Smith on her retirement this September 2021.

Chris is the epitome of dedication, having recently celebrated her 41st anniversary with OMIA and Farm Mutual Re.

Chris took a job at Farm Mutual Re (then FMRP) in January 1980 as a Systems Operator. She assisted RJ Slocki with setting up a new computer system – the HP250. In 1990, the statistics function moved to OMIA, with Chris as the Statistics Coordinator/Systems Administrator. In 2012, with a full team behind the system, she settled into the role of Statistics Coordinator.

Chris has remained an integral part of the Statistics and Information Services Department. She is our champion liaison with IBC, CGI, and the mutual system vendors, and most importantly, she takes pride in sharing her rich knowledge about statistical reporting with new colleagues. Her influence will certainly resonate for many years.

We wish you all the best in your retirement, Carol.
