

For the Board Meeting of: 11/18/2021

Executive Summary

October was another month of back to pretty much “normal” in the inspection department. The guys completed 95 inspections representing all lines of business. The back log currently sits at 1449. As a department we have been back on our schedule of bi-weekly meetings and in person at the office. Again another step back to “normal”. We attended our Ontario Mutual Loss Prevention League meeting this month via zoom. These meetings have become quite informative and valuable and continue on a monthly basis.

Update on Major Goal(s)

I have met with all the managers individually and have given them a summary of topics to teach the staff in respective departments. The level of teaching of course varies depending which department is to teach which other department. Everybody seems to be looking forward to this endeavor and training will start when content is ready.

Looking Ahead

Not much has developed since the kick off meeting with the new inspection system. I have had a few conversations with regards to content and have sent FarmRe an example of our Virtual Inspection Program. They indicate that target trials of the system is still slated for first quarter of 2022.

Respectfully Submitted,

Bryce Clarke

“We make a difference in our communities.”

We are proud of the communities we are part of. We go out of our way to support them and make a lasting difference.
